Typeface Name:

Lettering

Character Count:

N/A

Year Designed:

2016–

Description:

This is a random small collection of lettering. Some were performed “typecooker” style others were for briefs or simply for the sake of drawing or testing an idea. This category used to be a lot big but I’ve taken quite a few and built them into begin stages of a potential typeface. Those that have graduated, the original lettering experiment has been included in this section.

Things I learned from it:

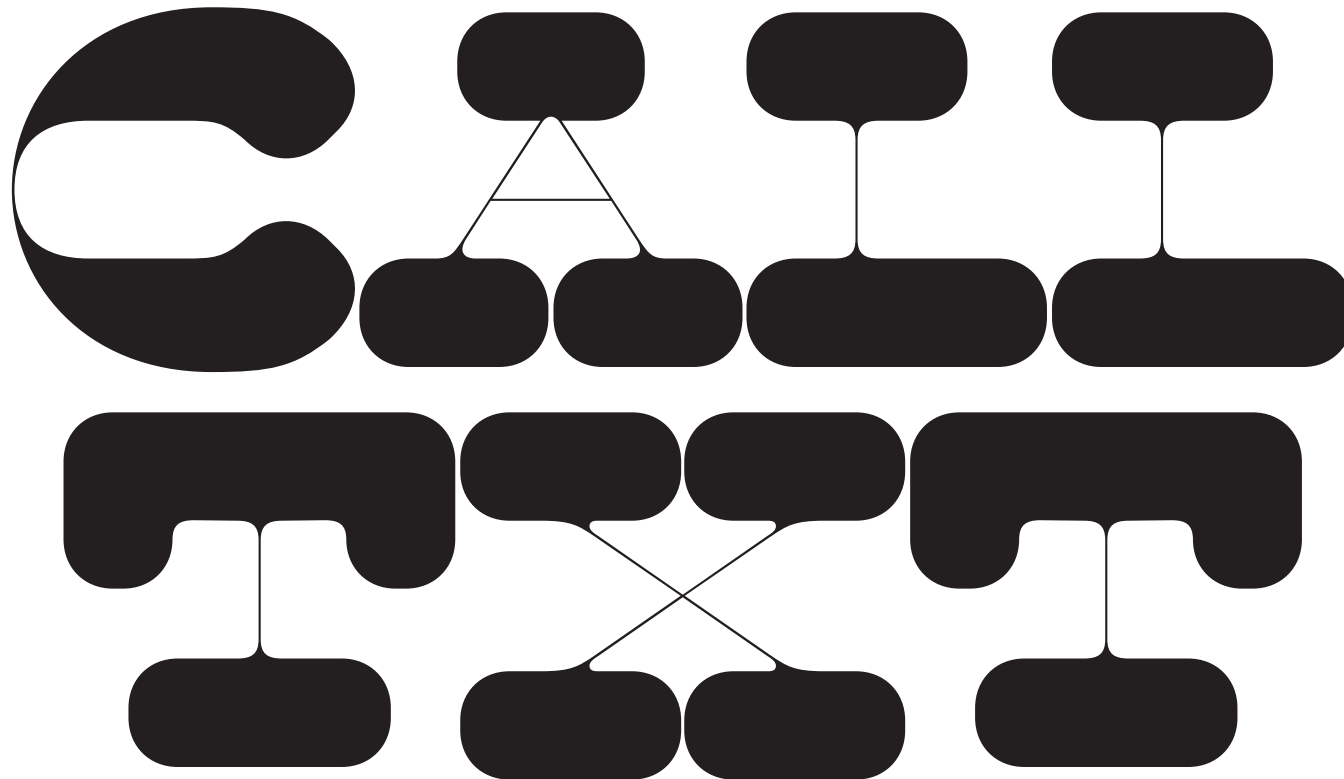

Free yourself. Don’t be afraid to try things. Draw things you like but also force yourself to draw things you normally wouldn’t.
